

# Who are we?

# The Australian Youth Advisory Network (AYAN)

## What is the AYAN?

The AYAN is St John's primary body for communicating and consulting with and representing the views of young members aged 12 to 26 years.

We aim to:

- communicate and consult with young people nationally and understand their point of view
- represent young people's views to decision makers in St John nationally
- help St John to achieve its organisational goal of making first aid a part of everybody's life.

## How do AYAN connect with young people?

We use technology to regularly connect and engage with young people, acting as a conduit to assist decision makers to realise the goals of the organisation.

## Why AYAN?

By connecting with young people, the AYAN can gain insight into how to promote a first aid culture in Australia and generate innovative ideas to contribute to a vibrant and sustainable St John. Young people have a great deal to offer organisations like St John and we want to share your ideas, innovations and feedback with decision makers.

## Who is AYAN for?

AYAN is for all young people. Whether you are an adult member, paramedic or other paid staff member or involved in the Cadet movement—we want to hear from you.
